CYBER SECURITY POSTURE ASSESSMENTS

An enterprise's security posture refers to the overall status of your cyber security readiness. Due to the increased cyber-attacks, performing cyber-security posture assessment will help you have a clear view of the security status and possible security threats of your organization.

INCIDENT RESPONSE AND HACKING RECOVERY

We help you in the investigation of cybersecurity incidents and intrusions on your organization's network. This includes the investigation of computer breaches, compromised data and hacking incidents.

CYBER SECURITY AWARENESS TRAINING

The human element is the weakest link in any security chain. Cyber criminals target employees of an organization to initiate their attacks. Most successful attacks emanated from a compromised human element.

DATA PRIVACY COMPLIANCE ASSESSMENTS

Data privacy, also called information privacy, is the aspect of information technology (IT) that deals with the ability an organization or individual has to determine what data in a computer system can be shared with third parties
